PROFESSIONAL SUMMARY

Analytical Computer Science undergraduate skilled in Python, C++, and SQL with experience in data cleaning, transformation, and visualization. Proficient in tools like Power BI, Excel, and BigQuery to deliver actionable insights and support data-driven decision-making. Actively looking for data analyst internships.

EDUCATION

Vellore Institute Of Technology <i>Bachelor of Technology - Computer Science with AI and Robotics - CGPA: 8.39</i>	Chennai, Tamil Nadu <i>Aug 2022 – Jul 2026</i>
Modern Vidya Niketan Aravali Hills (CBSE) <i>Senior Secondary - Percentage: 91.0</i>	Faridabad, Haryana <i>Apr 2021 – Mar 2022</i>
Modern Vidya Niketan Aravali Hills (CBSE) <i>Secondary - Percentage: 91.0</i>	Faridabad, Haryana <i>Apr 2019 – Mar 2020</i>

WORK EXPERIENCE

Data Analyst Intern Sales Dashboard Kaggle, PowerBI, PowerQuery, DAX	Oct 2024 – Dec 2024 <i>Remote</i>
- Gained hands-on experience in data visualization and storytelling using Power BI, applying analytical thinking and problem-solving and decision-making skills to derive actionable insights. - Built a 6-page Power BI dashboard using Kaggle sales data with customer, region, and product details and performed multi-year data cleaning (2017–2019) to ensure accuracy and consistency. - Applied data modeling in Power Query and DAX to calculate KPIs and visualize trends. - Collaborated in a team of 5 members, demonstrating communication skills, time management, and a positive attitude, to design and present an interactive dashboard to panelists.	

PROJECTS

Sales Dashboard Kaggle, PowerBI, PowerQuery, DAX	Nov. 2024
- Built a 6-page Power BI dashboard using Kaggle sales data with customer, region, and product details. - Performed multi-year data cleaning (2017–2019) to ensure accuracy and consistency. - Applied data modeling in Power Query and DAX to calculate KPIs and visualize trends.	
Behrouz-Biryani Analysis Python, BeautifulSoup, MS Excel	Jan 2025
- Extracted, standardized, and validated 30+ product attributes from the website using Python (BeautifulSoup), ensuring data accuracy across large datasets. - Cleaned and analyzed data in MS Excel using pivot tables, Power Query, and advanced formulas. - Designed performance overview and customer demographics dashboards in MS Excel, applying creativity for user-friendly visuals.	

TECHNICAL SKILLS

Languages: Python, C++, SQL, HTML/CSS, R
Tools: Snowflake, Apache Airflow, MS SQL Server, Power BI, MS Excel, Jupyter Notebook, VS Code, Microsoft Office, Google Looker Studio
Libraries/Frameworks: Pandas, NumPy, Matplotlib, BeautifulSoup, Scikit-Learn, Google BigQuery
Core Subjects: DBMS, Operating Systems, Object Oriented Programming

CERTIFICATIONS AND ACHIEVEMENTS

IIT Bombay: Python Training, C Training, C++ Training
Coding Platforms: Solving problems 50+ and 100+ days in 2025(LeetCode), SQL Silver Badge(Hackerrank)
Infosys Springboard: DBMS, Entity-Relationship (ER) Modelling, Business Intelligence and Multidimensional Data Modelling, Hands-on Data Visualization, Technical Data Analytics
Cloud Platforms: Oracle Cloud Infrastructure 2025 Generative AI Professional (1Z0-1127-25)
Competitions: Participated in Intel Hackathon in a team of 4 members, and made a Travel Bot
